

SUNTRICA
when you need the energy most

SUNTRICA

solar panels

Suntrica's solar chargers provide instant, reliable and renewable power e.g. for mobile phones, MP3/4 players, GPS receivers and digital cameras.

Besides the sun charge, you can charge up the Suntrica charger with USB -port, cig. lighter plug and A/C wall charger.

You will always find a fit-for-purpose solar charger for your portable devices. See the recommendation chart below.

All the Suntrica chargers are splash waterproof and some models are even waterproof.

Suntrica charger is your reliable power pack storing energy up to 7 years for use when you need.

Manufacturing process of the Suntrica chargers is free from hazardous materials and chemicals and you can safely recycle a charger through CER, battery and plastics recycling processes.

Suntrica is using high quality flexible and semiflexible solar panels to provide very durable and reliable solar chargers for people on the move.
